## Cost Analysis

InWare has put together a cost breakdown of our product, InTitle vs. the convention method of paper delivery. You can see the cost effectiveness of our product but what is not in here is the amount of repeat and referral business you will generate by marketing your company with the CD deliverable.

Assuming that an agency spends an average of \$10.00 for hard copy costs, including paper, toner, copy clicks, folders/binding and loss of productivity. The cost per CD is \$.96 + \$300.00 for the monthly terminal server or citrix server (unlimited users) licensing fee.

Closings Per Month	Paper Cost	InTitle	Monthly Savings	Annual Savings
150	\$1,500.00	\$444.00	\$1,056.00	\$12,672.00
300	\$3,000.00	\$588.00	\$2,412.00	\$28,944.00
450	\$4,500.00	\$732.00	\$3,768.00	\$45,216.00
700	\$7,000.00	\$972.00	\$6,028.00	\$72,336.00

Broke down with \$99.00 per month (1 license)

Closings Per Month	Paper Cost	InTitle	Monthly Savings	Annual Savings
150	\$1,500.00	\$243.00	\$1,257.00	\$15,084.00
300	\$3,000.00	\$387.00	\$2,613.00	\$31,356.00
450	\$4,500.00	\$531.00	\$3,969.00	\$47,628.00
700	\$7,000.00	\$771.00	\$6,229.00	\$74,748.00

You can see the cost savings; this is assuming that you are just handing out one closing package. You can start doubling numbers if you're handing out multiple closing packages. I hope this gives you a better understanding of our product.
